Description

Year after year, more fishing tour pros use HDS than all other fishfinder brands combined. HDS LIVE 16 will undoubtedly carry on that tradition behind premium performance and support for the best collection of innovative sonar features available – from new Active Imaging™ and StructureScan® 3D with Active Imaging to FishReveal™ and LiveSight™ real-time sonar – you will experience a new level of fishfinding performance with HDS LIVE 16.

Navigating to your favorite fishing spot or finding a new one has never been easier, behind the best suite of navigation features ever built into an HDS display -- including preloaded high-detail US, Australia, New Zealand or worldwide basemap, C-MAP® Easy Routing, Navionics® Autorouting* capability and C-MAP Genesis Live mapping.

HDS LIVE 16 simplifies your time on the water with onscreen text messages and call notifications, as well as support for LiveCast™ smartphone integration, which allows you to display video, Google Maps and fishing data on your fishfinder display.

Featuring a full high-definition SolarMAX™ HD screen, HDS LIVE 16 provides industry-leading images that are always easy to see – from any angle, in direct sunlight or even through polarized sunglasses.

HDS LIVE delivers powerful fishfinding sonar with a high-performance quad-core processor that produces the smoothest, lag-free operation, the most responsive touchscreen performance, and the fastest chart redraws and sonar updates.

*Navionics subscription required. See Navionics.com for more details
