Description

The SE takes the performance, bold designs, refined interiors and precision engineering of Supra Boats to extremes. This 24-foot 6-inch wake boat cranks out the most massive cleanest custom shaped surf waves on either side thanks to 3,200 pounds of ballast, precise hull design and the available Swell Surf System. The SE further exceeds high performance with wakeboard wakes that launched pros at the [2014 WWA Wakeboard World Championships presented by Supra Boats](#). The responsive handling and solid ride of the SE earned its spot on the Worlds stage as a large boat that excels in the precise maneuvering of a tournament tow boat. Enjoy the high torque efficient power of the 440 6.2 liter [Ford Raptor Engine by Indmar](#) standard with the instantaneous pull-up 427 foot pounds of torque provides. Opt for the SE550 and move up to the 575 6.2 liter Ford Raptor Roush Supercharged with 580 ft lbs torque. The extreme performance of the SE is matched by unchained exterior design creating that unique above and beyond Supra look. The interior refinement of the SE begins with the extremely wide bow and finishes with crowd-astonishing accommodation in all seating areas especially the new convertible rear-facing seat. Precisely engineered for the extremes of big water and large passionate water sports crowds, the SE is the ultimate in Supra's line of World Class tow boats.

Features

Horse Power (hp)	440-575
